## X (CPI), JANUARY 2008 (Base 100 = 2003)

stands at 149.0 with an increase of 2.06% compared to the previous month. The general index is 6.44% while it was 6.58 in December 2007. On annual average, the general inflation rate is 8.6%.

The **core inflation** (which excludes fresh produce and energy prices) went up by 2.35% if compared with the previous month and +10.71% over 12 months. On annual average, the core inflation rate which is 10.0% in January has increased if compared with that of December (+9.7%).

The increase in consumer price index of 2.06% is essentially attributable to the increase in prices for *food and non-alcoholic beverages* (+2.14%), particularly bread and cereals (+4.49%), meat (+2.55%), *vegetables* (+0.89%) and non alcoholic beverages (+3.37%). Also, there is an increase in prices for alcoholic beverages and tobacco (+1.07%), Transport (+4.60%) and Education (+14.32%).

In terms of annual changes, the increase of 6.44% in the consumer price index is mainly the result of the increase in prices for *housing, water, electricity, gas and other fuels* (+14.86%), transport (+11.62%) this is due to the fact that there has been an increase of fuel prices. Education prices also contributed to that increase with +25.70% because of the increase in school fees. Prices for health services went up by 9.42% as a result of the new tariff for consultations.

'*Local goods*' are the main source of inflation than '*imported goods*'. In terms of annual changes, prices for local goods rose by 6.13% and by 2.35% in monthly change, whereas there was an increase of 4.64% in annual changes and slightly an increase of 1.23% for imported goods respectively. However, prices for '*fresh products*' are 4.86% lower than they were in January 2007 and an increase of 1.95% compared to the previous month.

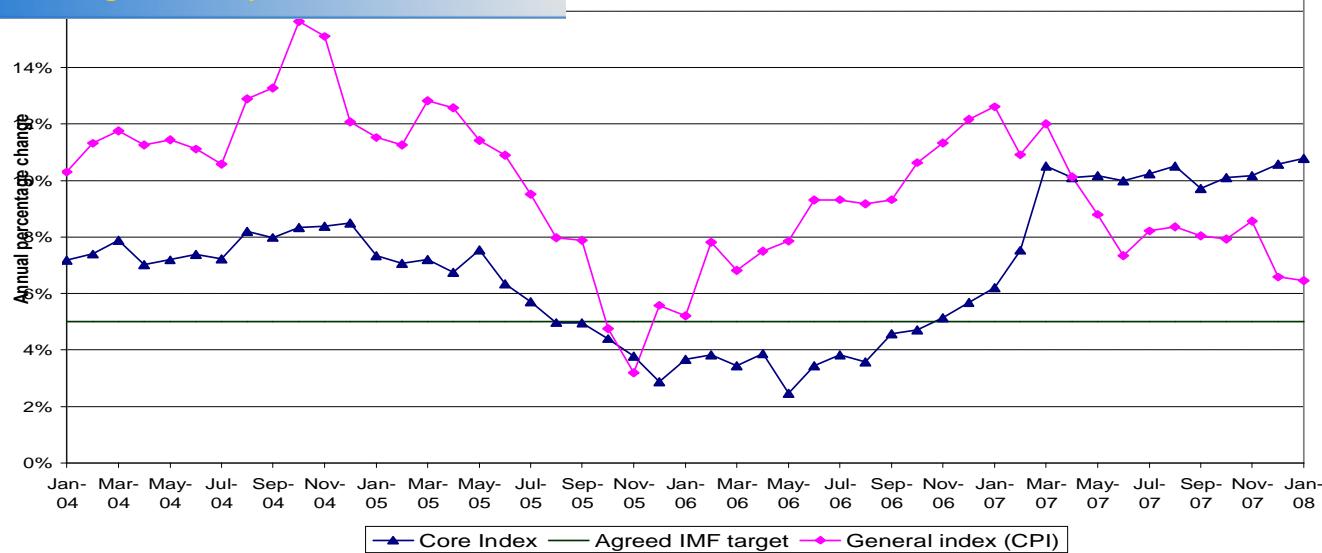

### Evolution (over 12 months) of the rate of inflation (%)<sup>(1)</sup>

MONTH	Jan. 07	Feb. 07	Mar. 07	Apr. 07	May 07	Jun. 07	Jul. 07	Aug. 07	Sep. 07	Oct. 07	Nov. 07	Dec. 07	Jan. 08
General index	9,5	9,8	10,2	10,4	10,5	10,3	10,2	10,1	10,0	9,8	9,5	9,1	8,6
Core / Underlying	4,2	4,5	5,1	5,7	6,3	6,9	7,4	8,0	8,4	8,8	9,3	9,7	10,0

(1) In January 2008 the average index of the last twelve months (February 2007 to January 2008) increased by 8.6% (general index) and 10.0% (core index) compared to the average index of the previous twelve months (February 2006 to January 2007).

son with the same month of the previous year)

## E METHODOLOGIQUE

du Rwanda est un indice de type Laspeyres qui couvre la consommation nationale. La population de référence est constituée de l'ensemble urbain du Rwanda. L'année de base de l'IPC est 2003.

Le panier de la ménagère comprend 438 variétés qui sont suivies dans de nombreux points de vente répartis dans les chefs-lieux de l'ensemble des provinces du Rwanda. Tous les types de points de vente sont concernés : marchés, échoppes dans la rue, boutiques, prestataires de services publics et privés, etc. Plus de 25 000 relevés de prix sont effectués chaque mois par les enquêteurs de l'INSR et de la Banque Nationale du Rwanda.

Les pondérations de ce nouvel indice proviennent de l'enquête intégrale sur les conditions de vie des ménages avec module budget-consommation réalisée en 2000/2001 auprès de 6 450 ménages.

Le raccordement des anciens indices avec l'indice base 100 en 2003 est possible en utilisant le coefficient de raccordement de 3,889. Pour un mois donné, il suffit de diviser les anciens indices par ce coefficient pour les rendre comparables dans la nouvelle base.

Des compléments méthodologiques sont disponibles au niveau de l'Institut National de la Statistique, Département «Statistiques Economiques ».
