## **Foreword**

Updated statistics are essential for planning, implementation, monitoring and evaluation of development programs at national, regional and global levels such as National Strategy for Transformation, Vision 2050, Sector Strategic Plans, Sustainable Development Goals, etc.

To respond to the progressively increased demand for statistics, the National Institute of Statistics of Rwanda (NISR) works with other members of the National Statistical System to strengthen production of reliable and timely statistics from different sources including administrative records, censuses and surveys.

In that context, the Annual Statistical Yearbook (SYB) is published every year to serve as a compendium of updated statistical information from different sectors and sources. The SYB2020 constitutes a wide range of topics including Household living conditions, Health, Demography, Labour Force, Gender, Education, Environment, Agriculture, Water and Energy, Transportation, Communication, Travel and Tourism, Income, Expenditure and Wealth, Banking, Insurance and Finance, Business Enterprises and Foreign Trade, Justice, etc. This Statistical Yearbook 2020 is expected to be an important source of statistical information to support evidence-based policy and decision-making.

We appreciate private and public institutions for their contribution to the production of this report.
